RE: APPLICATION FOR THE ENGINEERING ASSOCIATE VACANCY.

Having graduated from Kenyatta University with a first class honours in Bsc. Electrical & Electronics Engineering, I hereby would like to apply for the Engineering Associate job vacancy in PowerGen Renewable Energy. I believe that PowerGen Renewable Energy has the ideal environment in which to pursue my career objectives of becoming an innovative and creative employee and contributing to the company's outstanding record as a center for quality service.

I would like to request that you offer me an opportunity to showcase my skills and talent in your organization. My ability to work well as part of a team and my good interpersonal skills also brings out my desire to work in PowerGen Renewable Energy. These attributes, combined with my enthusiasm to learn, will be essential to my contributions and success in your organization.

I have a great passion in renewable energy since it is the future of energy in the world and I would really appreciate if I was given an opportunity in your company to learn from your expertise and experience in this field. I look forward to exchanging ideas with you concerning my career ambitions and the positive contributions I would offer as a member of your organization. I firmly believe that I will be a good fit in your organization.

Your consideration will be highly appreciated..

Yours sincerely

Crispus Cheruiyot.
